MEMORANDUM

To: Parents, Faculty and Staff
From: Martin L. Wright, Superintendent of Schools
Date: October 26, 2020
Re: Notification of Asbestos Re-inspections

In compliance with the U.S. Environment Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), we performed inspections of each of our school buildings for asbestos-containing building materials (ACBM) in the Fall of 1988. The inspection findings and asbestos management plans have been on file in each school administrative office since that time.

The EPA requires us to perform re-inspections of the asbestos materials every three years, plus a surveillance inspection each six months. An accredited asbestos inspector performs these inspections. In addition, a DHEC licensed accredited management planner reviews the results of the inspection and recommends actions we should take to safely manage each asbestos material in our buildings.

We have maintained an ongoing review of all ACBM in our schools during the 3 year re-inspections and the six month surveillance inspections. Currently, our Asbestos Management Plans are in good condition, and we will continue to manage our program as recommended by the accredited management planner in accordance with EPA/DHEC guidelines and requirements.

Our schools' Asbestos Management Plans are on file in the District's Administrative Office. Everyone is welcome to view them anytime during normal school hours (Monday-Friday from 8:00 a.m. to 4:00 p.m.). The Asbestos Program Manager, C.L. Brunson, is available to answer any questions you may have about asbestos in our buildings at 803-584-3446 or 803-584-3392.
